

# FREE, fast home care websites

Owning a professional looking website for your home care business doesn't have to cost you an arm and a leg.

Building an attractive, professional website—and making sure it's visible to your target market—can require the services of a programmer, designer, and marketing specialist, easily costing several hundred dollars.

Our quick, economical solution creates well-designed websites tailored to the home care business. We get you up

and running at no cost to you, and then offer additional benefits and upgrades at cost-effective rates.

## Why do you need a website?

In today's high-tech age, the Yellow Pages and direct mail campaigns have given way to online research. Adult caregivers are turning to the Internet to find in-home health care options for aging parents. A high-quality website helps you attract new clients, boosts customer confidence, and makes it easier for new clients to contact you.

In a matter of minutes, we'll create a professional, easy-to-use website tailored to your home care business. We'll also make sure your site has increased visibility in search engines, allowing potential customers to find you more easily.

Your own custom website is just a few clicks away. Let us help you leverage the power of the Internet to take your home care business to the next level.

## Get a FREE WEBSITE For Your HOME HEALTH CARE Business

**1** Select A Hosting Plan

**2** Create Your Account
