

## Why Oxford Garden?

---

At Oxford Garden, we realize you have extensive choices when shopping for quality outdoor wood furniture. The competitive marketplace motivates us to create the exquisite pieces that populate our entire product assortment. We begin by obtaining only the finest Shorea wood available, a variety prized for its hardness, density, and rich wood grain. Next, our skilled craftsmen set to work creating superior furniture pieces based on singular proprietary designs.

Below are a just a few of the features that distinguish our work from other manufacturers:

**Ample wood usage.** We start with the best Shorea wood sources, but we don't stop there. We cut our slats and assembly pieces thicker and wider than our competitors. This generous use of Shorea hardwood results in a finished product with uncommon strength and durability. It also allows us to bring to life truly comfortable furniture pieces with ergonomic designs that are simply not offered by most manufacturers. And, let's face it: higher quality wood produces more beautiful results. Our Shorea wood furniture ages wonderfully, gradually fading to a pleasing silvery hue for a warm, inviting appeal.

**Unrivaled craftsmanship.** We take enormous pride in the meticulous construction of each of our products. Our furniture is intended for everyday, rough-and-tumble, outdoor use, and it's built to last. We employ cross-doweled mortise and tenon joinery to ensure longevity, so each piece will stand ready for use, season after season. Stainless steel hardware and solid wood dowels ensure secure unions, while structural wood supports provide stable reinforcement. At Oxford Garden, our quality craftsmanship is evident in every detail.

**Unique designs.** We believe finely crafted furniture should be both comfortable and attractive. With this in mind, we create ergonomic pieces that are designed to accommodate the contours of the human body. During the construction process, we're always looking for ways to bring out the lovely wood grain in our fine Shorea wood. In short, we strive to produce

beautiful and distinctive pieces that enhance the soothing calm of your outdoor setting.

**Affordable luxury.** Our Shorea wood is heavier, denser, and harder than teak wood, and its higher abundance and availability make it significantly less expensive. Enduring and visually appealing, Shorea is an ideal choice for outdoor furniture. Like teak, it possesses a tight wood grain and high oil content for excellent resistance to decay and infestation.

When you take the time to compare, the superiority of Oxford Garden Shorea wood furniture is clear. We use only premium wood, and we aren't stingy with it. Our pieces are constructed with thick-cut assemblies for optimal strength and stability. Superb craftsmanship ensures longevity for years of enjoyable use, while our incomparable designs are centered around comfort and beauty.
